

A glimpse at mRNA  
dynamics  
reveals cellular domains  
and rapid trafficking  
through granules

# A glimpse at mRNA dynamics reveals cellular domains and rapid trafficking through granules

## **Proefschrift**

ter verkrijging van

de graad van Doctor aan de Universiteit Leiden,

op gezag van de Rector Magnificus prof. mr. P.F. van der Heijden

volgens besluit van het College voor Promoties

te verdedigen op woensdag 21 september 2011

klokke 15.00 uur

door

**Alice Myriam Christi van Gemert**

geboren te 's-Gravenhage

in 1979

### Promotie commissie

Promotor: Prof. Dr. H.J. Tanke

Co-promotor: Dr. C.R. Jost

Overige leden: Dr. A.B. Houtsmuller  
(Erasmus Medisch Centrum, Rotterdam)  
Prof. Dr. L.H.F. Mullenders  
Prof. Dr. J.J. Neefjes  
(Nederlands Kanker Instituut, Amsterdam)  
Prof. Dr. J.N. Noordermeer

Most experiments described in this work were performed at the Department of Molecular and Cellular Biology of the Leiden University Medical Centre, Leiden, The Netherlands.

# Table of Contents

➤ Chapter 1	p.1
General introduction	
➤ Chapter 2	p.19
Direct visualization of mRNA	
“In vivo monitoring of mRNA movement in <i>Drosophila</i> body wall muscles reveals the presence of myofiber domains”	
➤ Chapter 3	p.53
ICA as a method to analyze mRNA movement	
“Identification of cellular dynamic patterns resulting from repetitive photobleaching using independent component analysis”	
➤ Chapter 4	p.63
Direct visualization of mRNA during oxidative stress	
“mRNAs cycle through hypoxia induced stress granules in live <i>Drosophila</i> embryonic muscles”	
➤ Chapter 5	p.81
Indirect visualization of mRNA	
“Dynamic properties of Pumilio and dFMR1 and their contribution to the formation of RNA granules in <i>Drosophila</i> ”	
➤ Chapter 6	p.111
Photobleaching based techniques to study molecular dynamics	
➤ Chapter 7	p.129
General conclusion	
➤ Appendix	p.137
Summary, samenvatting, curriculum vitae, stellingen
